

## **Curriculum**

### **Ethos**

Our aim is to equip the children in our care with the necessary skills to enable them to become well-balanced individuals, sensitive to the needs of others and prepared to give of their best in all they do, both for the local community and society in general. We do not intend that the school will replace parents in the process of education, rather that we will work in partnership with parents for the benefit of the child. By using our professional experience and expertise, we can together enable all children to achieve to the best of their ability.

We value education that nurtures every child's needs. We value education that engages children in their own learning, promoting independence whilst inspiring and challenging each individual to reach goals which they may never have expected of themselves. We value every day as a fantastic opportunity to achieve great things, working in partnership to support every child to be the best that they can be. We aim to provide a personal learning journey for all our children. Our small class sizes mean that every child is treated as an individual and we are able to provide a flexible, bespoke and supportive approach to ensure that your child's needs are met.

We are very proud of our school and have high expectations of everyone in all aspects of school life. Learning is enriched by the values of our Christian ethos. We ensure that care, respect and responsibility underpins all our work, making our school a happy, safe and fun place to be. Our exciting curriculum is full of rich experiences that are well matched to the needs and interests of all learners - academically, emotionally, physically and spiritually.

We follow the National Curriculum. If you want to find out more about this, please contact the school.
